

Requirement Traceability Matrix

Traceability Matrix						
<b>Project Name:</b> RatVenture						
<b>Project Manager:</b> Seah Xuan Feng						
<b>Quality Assurance:</b> Farm Yong Wei						
Tan Kwang Wei						
<b>Developers:</b> Lennon Wee						
Zhou Zhengfeng						

Purpose: To manage requirements throughout the software development lifecycle. The Traceability Matrix ensures that requirements are captured in the design, implemented in the code, and verified by testing.

Traceability Matrix						
Requirement Number	Requirement Description	Status	No. of test conducted	Test Case	Design Component / Module	Comments
1	View character	Verified/Reviewed	3	1.1, 1.2	User able to view character with statistics	
2	Start new game	Verified/Reviewed	3	2.1, 2.2	User able to start a new game	
3	Exit game	Verified/Reviewed	4	3.1, 3.2	User able to exit the game	
4	Display town menu	Verified/Reviewed	4	4.1, 4.2	User able to display the town menu	
5	Rest character	Verified/Reviewed	4	5.1, 5.2	User able to rest the character and restore	
6	Exit from town menu	Verified/Reviewed	4	6.1, 6.2	User able to exit from the town menu	
7	Save game	Verified/Reviewed	3	15.1, 15.2	User able to save the game	
8	Resume game	Verified/Reviewed	3	16.1, 16.2	User able to resume from where he left off	
9	Move left in the map	Proposed				
10	Move right in the map	Proposed				
11	Move up in the map	Proposed				
12	Move down in the map	Proposed				
13	Attack opponent	Proposed				
14	Run from opponent	Proposed				
15	Display combat menu	Proposed				
16	Display outdoor menu	Proposed				
17	View character from outdoor menu	Proposed				
18	View map from outdoor menu	Proposed				
19	Move character from outdoor menu	Proposed
